

MURCHISON FALLS BY AIR (4 DAYS)

Murchison Falls National Park lies at the northern end of the Albertine Rift Valley. The park is bisected by the Victoria Nile, which plunges 45m over the remnant rift valley wall, creating the dramatic Falls where it derives its name Murchison Falls. Uganda's most spectacular park bisected by the Nile that gives you a guarantee to see the falls from the bottom angle. Hippos, crocodiles, antelopes, and aquatic bird species including goliath herons, Egyptian geese, pelican bee-eaters, kingfishers, Hombills, cormorants and the rare shoebill stork can be seen along the shores of the River. We will meet all your safari expectation through your 3 days visiting Murchison Fall National Park
