

Mt. Kilimanjaro has 3 volcanic cones and is the highest mountain in Africa at 5,895 meters above sea level. There are eight routes to climb **Mount Kilimanjaro** authorised by the National Park. From the south there are the **Machame route**, Western Breach and **Umbwe routes**, from the West there are the **Lemosho** and **Shira routes** and the Northern Circuit, from the east there is the Marangu route and from the north there is the **Rongai route**. We handle all sorts of **Kilimanjaro group trekking** requests and can help you customize the perfect trek whatever your group size or needs.
